DECLARATION

for Community-Based Organizations (CBOs)

"We're Still Worth More And So Are The People We Serve"

Community-Based Organizations provide care, advocacy and support for some of the most vulnerable people in our communities. We know these organizations are underfunded. We recognize staff are underpaid. And we believe the people who depend on these services are undervalued.

Through this CBO Declaration, we call on the Saskatchewan Government to support the following Action Plan:

1. **Implement a four-year funding strategy to address salary, training and operating cost issues in Community-Based Organizations**
2. **Develop and fund a comprehensive salary and benefit plan to allow CBO workers to achieve and maintain parity with other public sector workers.**
3. **Develop service delivery and facility maintenance standards for Boards and Agencies to ensure quality client services and clear standards of care.**
